SUMMARY

Dedicated Urban Technology student with a strong passion for transportation planning, GIS, and data analysis.

EDUCATION

University of Michigan, Ann Arbor

B.S. Urban Technology, Minors in Civil Engineering, Computer Science

GPA: 3.8

Ann Arbor, MI

Aug 2025 - May 2029

RELEVANT PROJECTS

Transportation Equity in Boston's Neighborhoods

- Measured neighborhood-level access to jobs and essential services across Boston using 30-minute isochrones for car, MBTA, and Bluebikes with Esri ArcGIS and MBTA GTFS data
- Adjusted scores for real-world cost and availability using USDOT Value of Time guidance, ACS car ownership rates, and bikeshare station density
- Identified transportation access disparities by overlaying results with ACS income and demographic data

Lowell Line Extended: A Transect of the Boston Metropolitan Area

- Used ArcGIS Online to map the Greater Boston region and the MBTA Lowell Line corridor
- Integrated custom geospatial datasets, including planned station locations and existing rail right-of-way data, to visualize the proposed expansion into New Hampshire
- Analyzed land use and transit-oriented development patterns across 5 sites along the transect, including proposed expansion

WORK EXPERIENCE

Data Visualization Intern

Mar 2025 - Jan 2026

Rochester Institute of Technology / Excelerate

Remote

- Analyzed 6-month marketing campaign data across 4 channels for an India-based SMB, delivering 10 visualizations that identified 23% budget waste and uncovered 5,000 rupees in cost savings.
- Built an interactive dashboard tracking 15+ key performance indicators with Tableau and Python, reducing stakeholder reporting time by 40% and enabling real-time campaign monitoring.
- Leveraged Tableau, R, and Excel for data management and visualization, accelerating analysis and supporting informed decision-making.

COMMUNITY INVOLVEMENT

Youth Coordinator

Aug 2021 - Present

BAPS Charities

Lowell, MA; Canton, MI

- Directed weekly educational programming for 50+ K-8 students, developing curriculum centered on cultural values and year-round engagement.
- Spearheaded planning and execution of 12+ annual events (up to 400+ attendees), managing logistics, programming, and volunteer coordination.
- Recruited, trained, and supervised 10+ volunteer instructors, delegating responsibilities across performances, speaking engagements, and regional youth events.
- Designed visual branding and promotional materials (flyers, brochures, signage) using Adobe Creative and Autodesk ArtCAM, increasing event attendance by 20%.

TECHNICAL SKILLS

Revit, Blender, Esri ArcGIS, QGIS, Tableau, Microsoft Office, Adobe Creative, Autodesk ArtCAM, R, C++, Python, Canva
